and patterns to design a creature to be a...
the gallery and show them around.
Examples: Is LISA a bird, fish, turtle, worm, snake or something else? If you decide to
use local? Will you make up a new animal or combine two? Is it a...
...?
Make your creature: What animal? Look at other animal characters and research.
What do they look like? Key design tips:
- simplify (do not draw every detail of an animal, choose important ones,
- alter (make some features like the eyes, head, mouth, paws, back, wings or
smaller?)
- styles (how can you change it even more? texture? longer ears or tail and
spots?)
- combine (platypus with koala, kangaroo with emu, fish and bird)
Colour: What colours work together?
- complementary colours (opposite on the colour wheel)
- contrasting colours (colour + shade e.g. red and black, blue and white,
- harmonious colours (colours next to each other on the colour wheel e.g.
and green, yellow and orange)
create: Write and sketch ideas for 3 or more creatures. Choose your
space provided above.
