

## **HUGH D.T. WILLIAMSON COMMUNITY GALLERY SPECIFICATIONS**

### **DIMENSIONS**

The gallery has 36.22 linear meters of exhibition walls and 109m<sup>2</sup> of floor space. Exhibition walls are approximately 4M high and made from 25mm plywood covered by 10mm of plasterboard.

### **POWER**

There are facilities to accommodate audio/visual equipment and power points spaced out regularly throughout the gallery.

### **HANGING SYSTEM**

Works can be affixed directly to walls.  
Works cannot be affixed to the floor, which is polished concrete.  
Any 3D works must be free standing or be displayed on a plinth.  
Hanging works from the ceiling is limited, but there is some opportunity to do so.

### **EXHIBITION FURNITURE**

SAM does not have additional moveable walls. Some temporary plinths and shelves may be available.

### **LIGHTING**

SAM is lit by ERCO adjustable track lighting. The gallery has a window, Northeast facing, that can be closed off.

### **CLIMATE CONTROL**

SAM is an air-conditioned venue with some temperature and humidity-controlled spaces. The Williamson Gallery does not have specific temperature and humidity-control but is part of the general regulated climate of the building.

### **OPENING HOURS**

Shepparton Art Museum and the gallery are open 10am – 4pm, 6 days a week (Wednesday to Monday).

Shepparton Art Museum is closed Good Friday, Christmas Day, Boxing Day and New Year's Day. Restricted hours apply on Anzac Day.
